	REAR	<b>200/60ZR17 (80W)</b>	N/A			5.5	5.5-6.25	193	672	28-32	34-36

Dunlop recommends that tire warmers be set at 70°-80°C for 45 minutes to 1 hour (maximum); tire performance degradation may occur if tires are subjected to repeated tire warming cycles, and/or temperatures/times in excess of these.

This chart excludes Daytona.

Width and Diameter are measured on recommended rim.

NON-DOT ROAD RACE

Dunlop recommends that tire warmers be set at 70°-80°C for 45 minutes to 1 hour (maximum); tire performance degradation may occur if tires are subjected to repeated tire warming cycles, and/or temperatures/times in excess of these. Dunlop does not recommend the use of tire warmers on rain tires.

This chart excludes Daytona.

Width and Diameter are measured on recommended rim.
